programming | Basic knowledge of Dart Programming Language | Dart OOP | Mobile
Development: Flutter & Dart

DRIVING LICENCE

Cars: B

PROJECTS

[17/09/2021 – 19/01/2022]

Foggy Runner : Crypto Edition

Left! Right! Jump! Down! Test your reflexes while trying to avoid obstacles in a foggy environment(spoiler: the speed increases over time). You can also collect the currency of the future while doing all of that for extra points: cryptocurrencies. You can pick up Bitcoin, Dogecoin, Litecoin, Monero, Vertcoin and some more. There is also a special category called "Did you know?" dedicated to those currencies if you want to read and find out interesting facts about those. This is version 1.0.0.0. You can expect different improvements, like: a shop where you can use the cryptocurrencies that you have collected for buying different in-game things; multiplayer split screen, access to some features while they are still in early phase, etc. All of the trademarks and symbols are used with permission(or they were on public domain). Do not under any form use them after changing how they look,etc.(do not be a "reseller").

HOBBIES AND INTERESTS

Tech Hobbies

My passion for technology and programming is reflected in my leisure activities, where I engage in developing personal projects. I aspire to learn the latest technologies and apply my knowledge in creative projects, showcasing my commitment to continuous evolution in the technological field. These tech hobbies fuel my curiosity and contribute to my constant development in an ever-changing industry.

My tech hobbies are not just a form of relaxation but also a way to stay updated on the latest trends in the IT field, aiming to excel in this domain.

COMMUNICATION AND INTERPERSONAL SKILLS

Collaboration and Performance

My skills include active listening, clear and persuasive expression, conflict management, and building a positive atmosphere in work teams. These qualities have significantly

contributed to improving relationships with friends and college colleagues. With special attention to detail and an adaptable approach, I am dedicated to the continuous development of my communication skills to support organizational success.

With a sincere desire to develop my skills and actively contribute to projects, I am seeking opportunities to start my career in a stimulating environment. As a person dedicated to continuous learning and with growing communication skills, I am enthusiastic about making a positive contribution and learning quickly. I am in search of an opportunity that provides practical experience and allows me to evolve in a field where I can add value and contribute to the success of the team
